

16 June 1970

DIVISION OF PHYSICS
Sussex Drive

Dr. R. Martineau

With regard to the visit by Dr. Branscomb, I should like to say that I will be in Europe from 12 July to 26 August. I would therefore much prefer his visit in September, although I shall have to be in the U.K. for a lecture commitment on 30 September.

I know Dr. Branscomb very well and am, of course, most anxious to see him while he is visiting NRC.

G. Herzberg
